WHAT DO WE HAVE?

COMMUNITY CENTER

We have a community center with a landscaped garden, gazebo and tools library. Through this center, we want to campaign for the organic farming and sustainability for a better quality of life.

ORGANIC GARDEN

A woman with long dark hair, wearing a white sleeveless dress and a wide-brimmed hat, is walking on a dirt path through a lush green forest. She is smiling and holding the hands of two young children, a boy and a girl, who are also walking on the path. The sunlight filters through the trees, creating a warm and natural atmosphere.

All owners and visitors can see firsthand how organic plants are planted, cared for, and harvested directly by trained and certified farmers. Each harvest would be sold at the stand and as raw material in the eco resort.

SUSTAINABILITY

From eco-friendly construction and renewable energy sources to organic farming and water conservation initiatives, every facet of our managed farmland at silverwoods is a testament to our dedication to leaving a positive impact on the environment.

SEASONAL EVENT

We often organize seasonal events to encourage everyone to switch to sustainable living. The event is very open to everyone, from children to adults. Many events are held, such as games, harvesting together, music, and organic food festivals.
